Additional information for the study programme of Lasers and Photonics

**frequency of courses:**
Courses of obligatory and mandatory modules are usually offered annually in the semester indicated (1. & 3. semester = winter semester; 2. & 4. semester = summer semester).

**students starting in summer term:**
As the regular starting period of LAP is in the winter semester, semester 1 & 3 refer to the winter semester and semester 2 & 4 to the summer semester respectively. Students who start in summer will have courses during their personal 1. semester according to the schedule of semester 2 and during the personal 2. semester according to semester 1 or 3 respectively.
